

PHASE-3

PROJECT DESIGN

Architecture is based on a layered/MVC-style backend architecture. The project contains models, controllers/routes and services, with MongoDB handled through Mongoose.

ARCHITECTURE:

DATABASE DESIGN:

User:

- `_id`
- `name`
- `email`
- `password`
- `role`

Blog:

- `_id`
- `userID`
- `name/title`
- `content`
